Story Telling

In DPS 84's Kindergarten, the power of storytelling came to life as tiny tots took center stage in an enchanting enactment of "The Lion and the Mouse." Through this immersive activity, young minds embarked on journey of active learning, fueling their innate love for stories and fostering psychological exploration

Founder's Day

From pre-primary to senior grade, all our students came together to celebrate the momentous day our school was set up! The zeal to nurture bright minds of the future continues.

Mother's Day

Mother's Love - a brilliant GEM to be treasured."

Mother's Day is a special day for all the children and mothers as, it celebrates the bond of love and affection that is everlasting. Mothers are the emotional backbone of the family and have the magic touch to heal all wounds and make all things beautiful. Mother's Day was celebrated with much enthusiasm and love by our kids of Nursery in DPS Sector 84. The day that recognizes the essence of a mother was celebrated in high spirits and merriment. Mother's day was celebrated in school in which all the mothers recalled their memories by doing different activities, rhymes, dance and so on. The enthusiasm of mothers was a real treat to the eyes

Family Day

Families are like branches of a tree. We grow in different directions, yet our roots remain as one...

Family is the most precious and wonderful gift of God. Family day is a perfect opportunity for every single one of us to reunite with the ones we love. To realize and perceive the value of family in our life, the discussion on 'The importance of Family' followed by frame activity was done by the little learners of grade 1.

Family Day

International Dance Day

At DPS, we strive to provide a nurturing environment where students can explore their talents and interests. We believe that extracurricular activities like dance help nurture well-rounded individuals and build a strong sense of community. This International Dance day, we celebrated the joy of movement and the power of expression through dance. Our students danced their hearts out and it was amazing to see their passion for the art form.

International Dance Day

International Dance Day

Labour Day

DPS Sec-84 organized a "Thank You" Card Making activity for students in classes V to VIII on Monday, 1st May 2023, Labour Day. This activity aims to instil in our students a sense of gratitude and respect towards the labour force. Students went around the school distributing cards, sweets & flowers to the school staff such as security guards, bus drivers, and attendants. They were pleasantly surprised and touched by the kind gesture of the students and expressed their gratitude with smiles and words of appreciation. The students learnt the valuable lesson about the importance of showing gratitude and recognizing the contribution of workers. They realized that it is important to acknowledge and appreciate the people who help us in our daily lives.

Labour Day

Happy Labour Day

WWF

In a special session, WWF members shared the importance of protecting endangered species and their habitats with our students. The interactive discussion ignited their passion for wildlife conservation. Get ready to witness our students' commitment in the Wild Wisdom Global Challenge 2023.

Career Counseling

Our Grade-XI and XII students had the privilege of an interactive session with Mr. Lee Wildman and Ms. Mishi Sardan from Global Engagement at Queens Mary University, London. They delved into the exciting world of undergraduate admissions in the UK, shedding light on the UCAS application Portal and admission requirements for renowned universities including the prestigious Russell Group, such as Oxford, Cambridge, and Queens Mary University. From Manchester to Edinburgh, Kings College to many more, our students actively participated, asking questions and clarifying doubts. It was an inspiring and informative session, unlocking a world of possibilities for their academic journey.

Career Counseling

DNA

"Science is the process that takes us from confusion to understanding in a precise and reliable manner." Grade XI and XII students had the privilege of attending the Young scientist DNA workshop with Mr V.K Singh from MY DNA LABS. They got the opportunity to learn about lab equipments ,Sample collection methods , working of Centrifugation machine, water bath and gel electrophoresis. Students were really excited after extracting their own DNA from blood and hair samples. It was an inspiring and informative workshop which built their interest towards Forensic Sciences and different branches of Medical sciences.

DNA

Mental health workshop

It was a proud moment to have Mrs Kuljeet Kaur, an exceptional orator and a passionate supporter for the societal concerns with us to guide our students on mental wellbeing. Her vast experience and association with our Institute has been a source of inspiration for the staff as well as students. The interactive session with our students of Grade XI and XII was a wonderful experience where ma'am shared her insights into the current concerns that today's youth has been dealing with. The clarity on the two very close aspects of life "Education for living and "Education for life' was given to make the students understand the correct aim. Mrs Kaur cleared the concerns that came from students during Q&A session.

Mental health workshop

Emergency response training

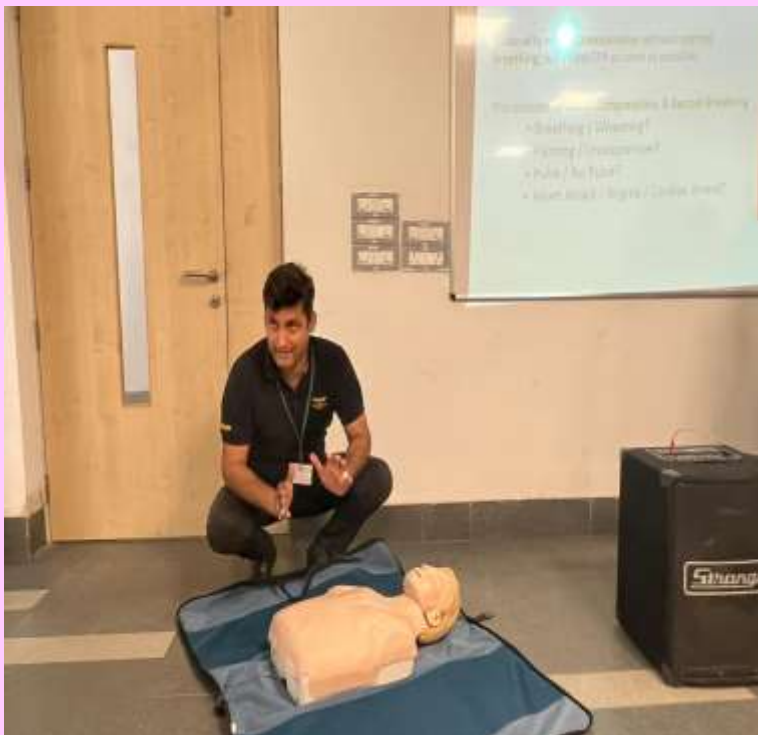

The school organized an enlightening event which was conducted by highly skilled professionals on the crucial topics of "First Aid, Rescue operations and Fire Fighting". The event began with an introduction to the importance of basic first aid techniques in emergencies. The professionals effortlessly explained the significance of quick response and demonstrated life-saving maneuvers such as CPR, the recovery position, and controlling bleeding. Through their engaging demonstrations, they showcased the correct techniques and emphasized the importance of remaining calm and composed during critical situations. Moving on to disaster management, the professionals shed light on the crucial steps to be taken during natural calamities or other unforeseen emergencies. They showcased various scenarios, such as earthquakes, fires, and bombing threats, and provided practical tips on evacuation procedures. Their comprehensive approach left the audience empowered and prepared to face unforeseen disasters. The professionals' expertise and dedication to creating a safer community were truly inspiring, leaving a lasting impact on everyone in attendance. We are grateful for the opportunity to witness such a valuable event and are motivated to spread the knowledge gained, ensuring a safer and more resilient future for all.

Manifesto assembly

Some people are born leaders, but leadership skills have to be nurtured. This explains why today, schools take the allocation of power to students seriously through holding elections. To nurture our students at DPS, Sector-84, Gurugram, an election manifesto was held on 23.05.2023. Wherein, the contestants informed the voters about themselves. They conveyed their intentions, views and beliefs and motivation behind the specific position they were vying for. This manifesto was followed by E- voting which was held on 25th May 2023.

Experiential Learning

EVS- Grade II

“The proper use of science is not to conquer nature but to live in it.”

As rightly said, students of Grade II presented a few lines on the topic - Paper Body.

Students made an outline of their doll and made body parts/organs; and presented it in the class.

Grade V- Seeds –Existence of Life

When it comes to science we all get excited as there are more practical ways of explaining the topic instead of just following what's in the book!! The existence of all living beings come from a small seed. Without seed there will be no plant and no life. To understand the concept more in detail it's always good to give hands-on experience. In grade V, students were divided into groups of 5 and were given soaked seed. They were told to carefully remove the seed coat keeping in mind to locate the hilum and point out the cotyledons. They were more amazed to see the tiny plumule and radicle will later become the root and shoot for a big plant. Working in a group was quite engaging for them and learning about the existence of life was enriching.

Experiential Learning

Grade I- Our Senses

The students of Grade I learnt, how powerful each sense or sense organ is through an array of activities. One of the activities was exploring the sense of taste. They tasted different food items, with their eyes closed and were amazed to find out that they can recognise the food item without even seeing it.

Experiential Learning

Nursery- Sense Station

"Our senses are the way that we explore the world and understand what is going on around us."

Our little children know the names of all sensory body parts. But to elaborate the use, importance & need of each one...An attractive "Sense Station" was created in class for nursery kids where every child physically observed & practiced various provided materials. Our tiny tots enjoyed a sensory experience using their various organs. They were excited to smell, taste, hear, see and feel through various things. Such activities stimulate the senses, helps the brain to develop and function at its peak and this type of entertaining activities help them to focus & learn with full attention & enthusiasm.

Experiential Learning

Nursery- Healthy food vs Junk Food

Let us be HEALTHY, Let us be FIT!

Let us eat VEGGIES, Rather than CHIPS!!*

An activity related to Healthy Food and Junk Food was conducted for the Nursery kids.

In this teacher told them the benefits of eating healthy foods and why we should not eat junk food.

Children recited a rhyme related to this and Class teachers performed different experiments to brief the importance of healthy food and washing hands.

Class teachers demonstrated the following experiments-

- *Creepy Crawly Worms
- *Coke and Milk Experiment
- * Clean Hands

Kids were totally engaged with the activities.

They all enjoyed and learnt the lesson that we should always eat healthy food.

Experiential Learning

Grade I- Cleanliness

Cleanliness, the first step towards a healthy nation. The students of Grade I were explained the importance of cleanliness and hygiene with the help of few interesting activities. They saw the germs running away in the bowl when touched with soap and also watched the germs spreading from one hand to another while shaking hands. They learnt the importance of washing hands and assured their teachers that they will follow the same in their daily routine.

Experiential Learning

Maths- Grade V- Roman Numerals

We know that a hands-on approach is the best way to learn math! That's why we've been incorporating activities that make our students think critically and creatively while having a great time! From Roman numbers to Abacus, our students are learning these concepts through play and having a blast while doing it.

Experiential Learning

Grade II- Odd and Even

Our all-time favourite Cadbury Gems and Maths!

We at DPS-84 believe that we assimilate best when we deeply engage with the material. The best way to get down to brass tacks is to create a practical curriculum that has relevance to students' lives and experiences. So, why not to let this learning happen with the Cadbury Gems! This time, students of Grade 2 learnt about even numbers and odd numbers through a story and then through learning by doing. The activity was cherished by our dear students and they were exhilarated to continue it.

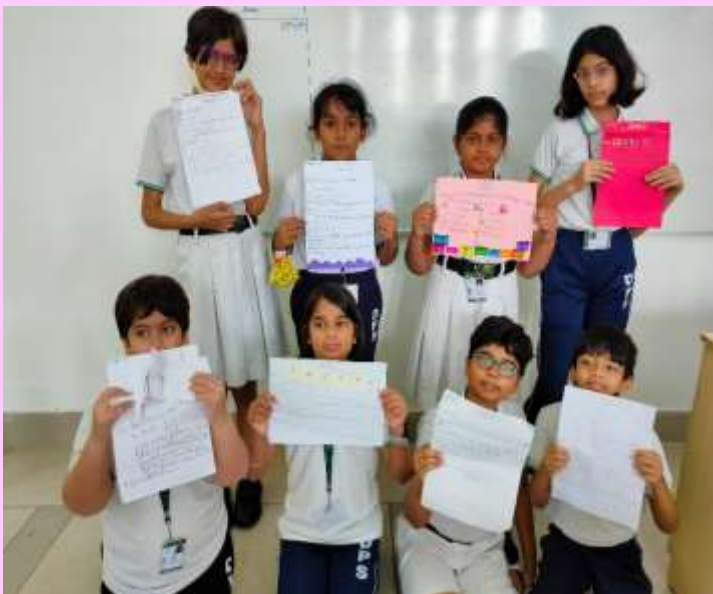

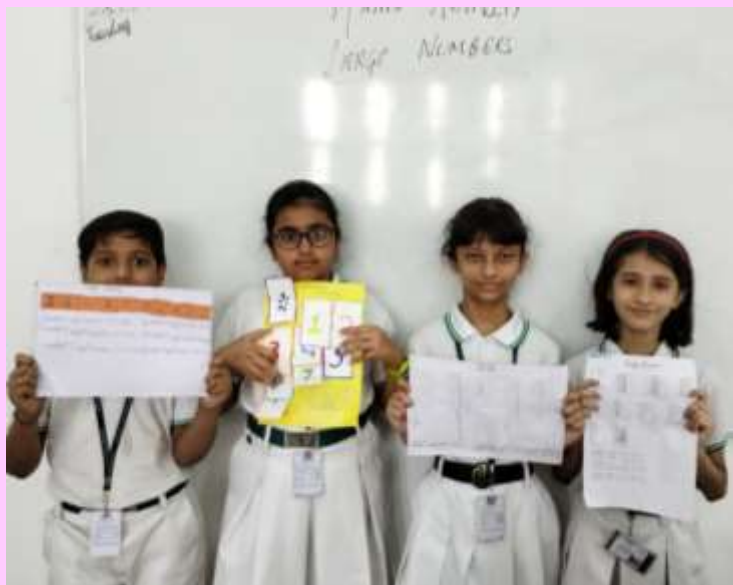

Experiential Learning

Grade V- Large Numbers

A large number concept includes numeracy skills which enhances your critical thinking and problem-solving abilities. Universally we use the numbers in our daily life. We use numbers to read time, date, year and weather. We use numbers in school and work, counting money, measurements, phone numbers, passwords, Digi locks, bank account numbers and more. Grade V performed an activity on "LARGE NUMBERS". This activity was used for the concept clarity of large number in a better way. All the students enthusiastically participated and enjoyed the activity.

Experiential Learning

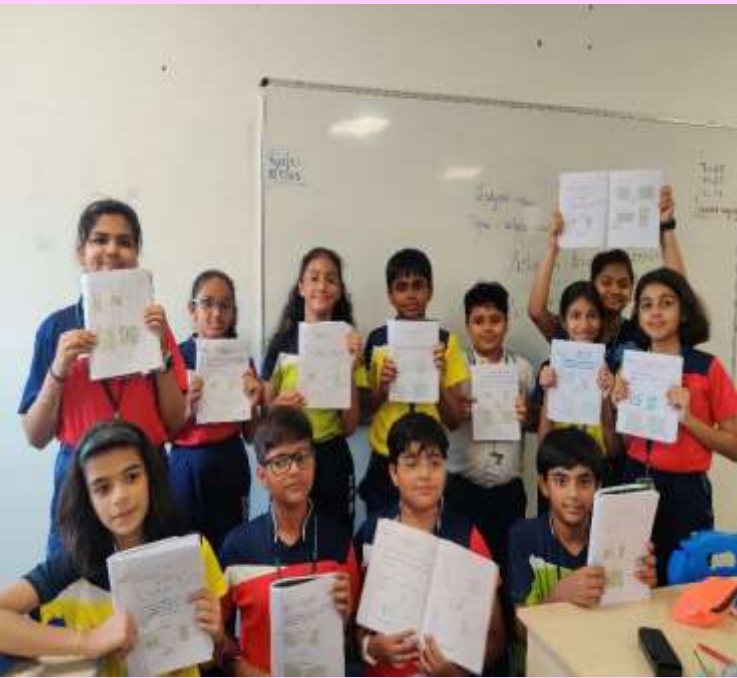

Maths- Grade VI

"Mathematics is a place where you can do things which you can't do in the real world. "Math is an important part of learning for children because it provides vital life skills. Maths activities encourage children to develop their reasoning skills, think in a mathematical way and improve their working memory, as well as building their understanding. With this motive Grade VI performed an activity to prove the Commutative property of whole numbers. Children learnt the concept of multiplication of whole numbers using grid/graph paper. Grade 6 students also performed the activity to understand the "Sieve method of finding Prime and composite numbers". Children used the grid board of their board games like Snake and ladder, Tambola on which the numbers from 1 to 100 were written. The grid of numbers was used with the student's pre-knowledge of multiplication and divisibility rules to find the prime and composite numbers between 1 and 100. This was an attractive and fun activity.

Experiential Learning

Experiential Learning

English- Grade IX

The debate on traditional learning versus virtual learning is ongoing and has gained more attention in recent years due to the increasing availability of technology. Students of grade- IX participated in inter-class debate activity, inspired by their first chapter of Literature - "THE FUN THEY HAD". The proponents of traditional learning argued that face-to-face interactions with teachers and peers are essential for learning, while advocates of virtual learning emphasized its convenience, flexibility, and accessibility. The COVID-19 pandemic has accelerated the adoption of virtual learning, highlighting its strengths and weaknesses. Ultimately, the effectiveness of each method depends on various factors, including the learner's preferences, the subject matter, and the resources available.

Experiential Learning

ENGLISH- SUBJECT ENRICHMENT ACTIVITY- VII

The story 'Wonder' teaches children to be kind and nice to others and not judge others by their appearances. Keeping in line with the main thought of the story the students, as a part of class activity, designed colourful postcards that came along with inspiring messages.

Experiential Learning

COMPUTER - Subject Enrichment Activity - Grade VIII

Exciting news from the grade 8th class! They recently held a lively debate on the benefits and risks of computer networks, and it was a fantastic learning experience for all involved. The debate covered a range of topics, from the advantages of being connected to the potential dangers of cyber threats. The supporting critically thought points of the students made the debate interesting and worth appreciating. In this age of technology, understanding the benefits and risks of computer networks is more important than ever, and it's great to see our young people engaging in this important conversation.

Experiential Learning

SUBJECT ENRICHMENT ACTIVITY- GRADE VIII (APRIL- MAY)- 'ART IN EVERYDAY LIFE'

The activity encouraged the students to draw regular/everyday objects like-flower vase, bag/folders, handkerchief, tea set, notebook, cover, dress etc. and decorate them using innovative patterns and designs. Students demonstrated how art has evolved all over the world to adapt to different cultural styles for patterns and designs. The methods and techniques utilised by the students had the various art forms including

1. Pencil shaving art
2. Paper quilling
3. Paper cut work art
4. Different indigenous art forms

Experiential Learning

Show and Tell - Celestial bodies in the Solar System

The best way to teach Social Studies is to make it more interactive and engaging. In order to incorporate this in our teachings an activity was planned for Class VI students, to make them learn about our Solar System.

Students were asked to describe and explain one or more celestial bodies within our Solar System. They really enjoyed and shared some interesting facts about our Solar System. This activity helped in enhancing students' observation, visualizing, inquisitiveness and exploration skills.

Experiential Learning

Experiential Learning

Language learning helps develop strong cognitive skills, such as a better concept formation, mental flexibility, multitasking, listening skills and problem-solving, in addition it improves social interaction and encourages connection between peers.

Children at DPS are constantly engaged in various performing Arts to improve their proficiency in French. They are listening to French songs which introduce them to pronunciation of French words as well as the general tempo of spoken French. Children were encouraged to learn songs like Frere Jacques, Bonjour mes amis, Jean petit qui danse and Alouette which they presented in front of the class. To improve their oral skills, they are engaged in dialogue presentations on greeting each other, introducing themselves to each other. Role -plays for students of Gr VII to X are conducted on topics on themes like Booking a ticket at the station, Ordering food at the restaurant. Integrating creativity with French made their learning more joyful and interesting.
