The role of a teacher is vital in a student's life. While children get their emotional needs fulfilled at home, it is the teachers who acknowledge and understand them at school. They are the ones who nourish the child for a better future. In other words, teachers also work as "parents" in the school. The role of teachers is highly significant in the present context of COVID-19 because it is the teacher who acts as a Learning Facilitator of the young minds and guides them through online education. Teachers have been considered the cream of society, the reason being that they help children to become good citizens. Known to be the architects of the nation, they provide the mould in which the nation's character is cast through online education. In the context of COVID-19, today, a great responsibility rests with teachers with regard to motivating the children and youth of India. Teachers at DPS, SEC-84 have succeeded in nurturing young minds, through online education, ethical and moral values, awareness of the significance of our heritage of thought and culture, our spirit of pluralism and oneness, the inculcation of scientific temper, patriotism and a sense of mission in the task of taking our great country forward. Improvement in education, whether quantitative or qualitative, can only be secured through the efforts of teachers who are the direct agents in the process of education. We have dynamic teachers, a dynamic team and a dynamic system to stimulate the static and obsolete system especially in the COVID-19 context.

# Teacher's Day

*"They inspire you, they entertain you, and you end up learning a ton even when you don't know it". Nicholas Sparks*

*Teacher's Day is celebrated on 5th September every year on the occasion of the birth anniversary of India's second President, Dr. Sarvepalli Radhakrishnan. The tiny tots of DPS84 School, Gurugram celebrated Teacher's Day with zeal and zest on September 5, 2020. The little blooming buds were dressed up as their favourite teacher and they recited rhymes and songs to show respect towards their teachers.*

# Teacher's Day

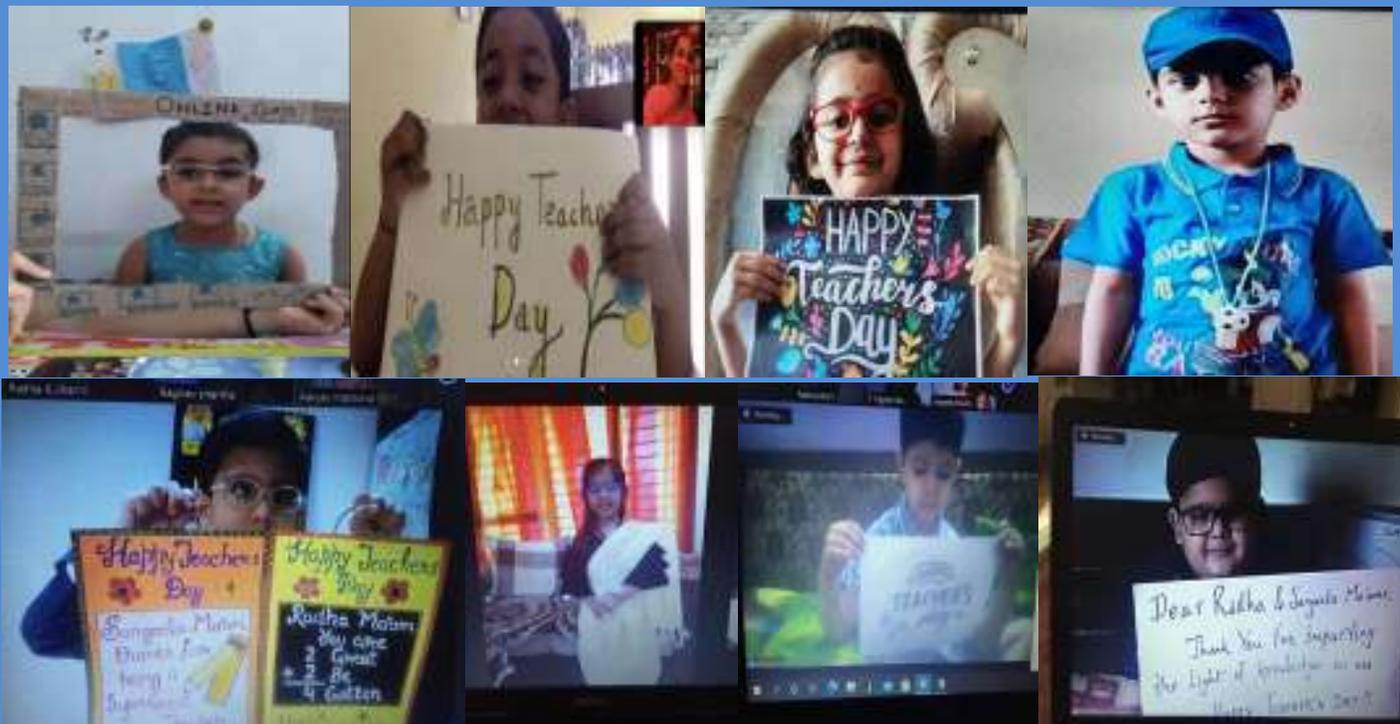

Parents and Teachers are our well-wishers; they teach us modesty, love and togetherness and contribute to the development of a child. So, on the occasion of Teachers' Day, students of Nursery performed a mesmerizing role play on 04<sup>th</sup> September 2020, where they dressed up as their teachers conveying hearty messages through cards, rhymes and songs. They all carried themselves smartly. Students also made cards as a token of thanks to honour and express their love for their teachers. It was an emotional moment for all the teachers. Teachers felt proud of their students and appreciated the earnest efforts of their tiny-tots. In all, it was a wonderful event full of fun and joy.

# Teacher's Day

## Dress & Tell

Songs and poems, kisses and hugs, all bear hugs virtually this year but, it made a big day for all the teachers when kids of Kindergarten showed their love for teachers with the 'Dress and Tell activity.'

## Innovative Classes

### Life Cycle of a butterfly:

Hands on learning prove to be the best when children are thoroughly involved in it. Students of Kindergarten learnt the Lifecycle of a butterfly using playdoh.

# *Innovative Classes*

## *Orange Colour Day Celebration:*

*Orange is a dynamic colour that stimulates imagination and creativity. On 26.09.2020, the little blooming buds of Pre-Nursery celebrated Orange Colour Day with great zeal and zest. The children spoke eloquently during "Show and Tell" related to this colour. Our little Seedlings and Saplings were dressed in shades of vibrant orange colour, shining bright and enjoyed all the fun-filled activities.*

# Innovative Classes

*“Go Coco Loco. It’s World Coconut Day!”*

*“Coco” means “Laughing face”.*

*As part of the World Coconut Day celebration, the teachers of Nursery wing organised an awareness programme on the multiple uses of the coconut palm. The attraction of the celebration was the craft made by the students using coconut shell. They were amazed to see their own creations.*

# Innovative Classes

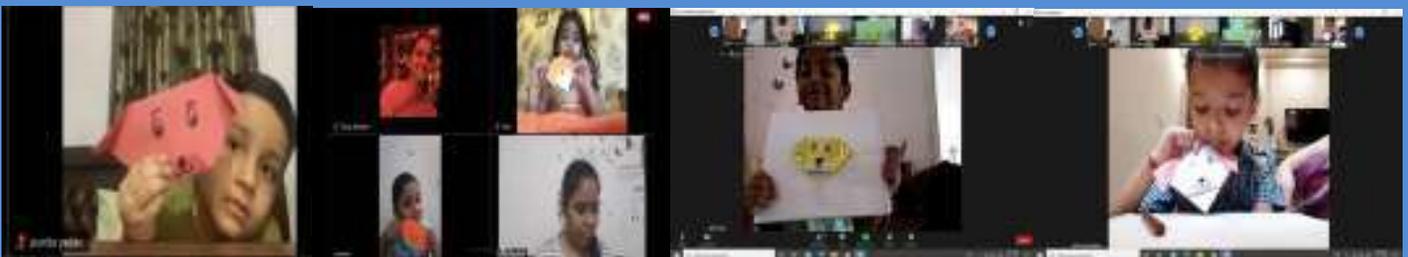

*World Coconut Day - Contd.*

*Students enjoyed celebrating the world Coconut Day. They dressed up and it was a surprise to see their parents take active participation to make accessories out of the coconut leaves.*

# Innovative Classes

*Origami- Learning life skills at a young age is a great idea! To imbibe the value of respecting animals, children made an origami dog after listening to a story about love and loyalty - two important human values!*

# Innovative Classes

*"Kids are like tubs of play doh, open up the lids, add a pinch of imagination and watch what they become."*

*Every child needs experiences that match his or her developmental level, and a simple piece of soft clay is a perfect match if the child is ready. It encourages more experimentation. Students of Nursery wing celebrated National Play Doh Day on Wednesday, 16th September 2020. Every child created his own masterpiece. It indeed was a day full of creativity and colours. It was a great joy to see those little hands creating something eye catching. This simple staple activity not only allowed the children to use their imagination but also helped to strengthen the small muscles in their fingers. Children were taught to make homemade clay too.*

# Innovative Classes

## Parts of A Plant:

Activities are always fun. Students enjoyed learning 'The Parts of A Plant' by pasting cutouts of different parts in their files.

## Germination:

Learning by doing has always made learning more interesting. The students learnt how a seed germinates by performing an activity on Germination.

## Plantation:

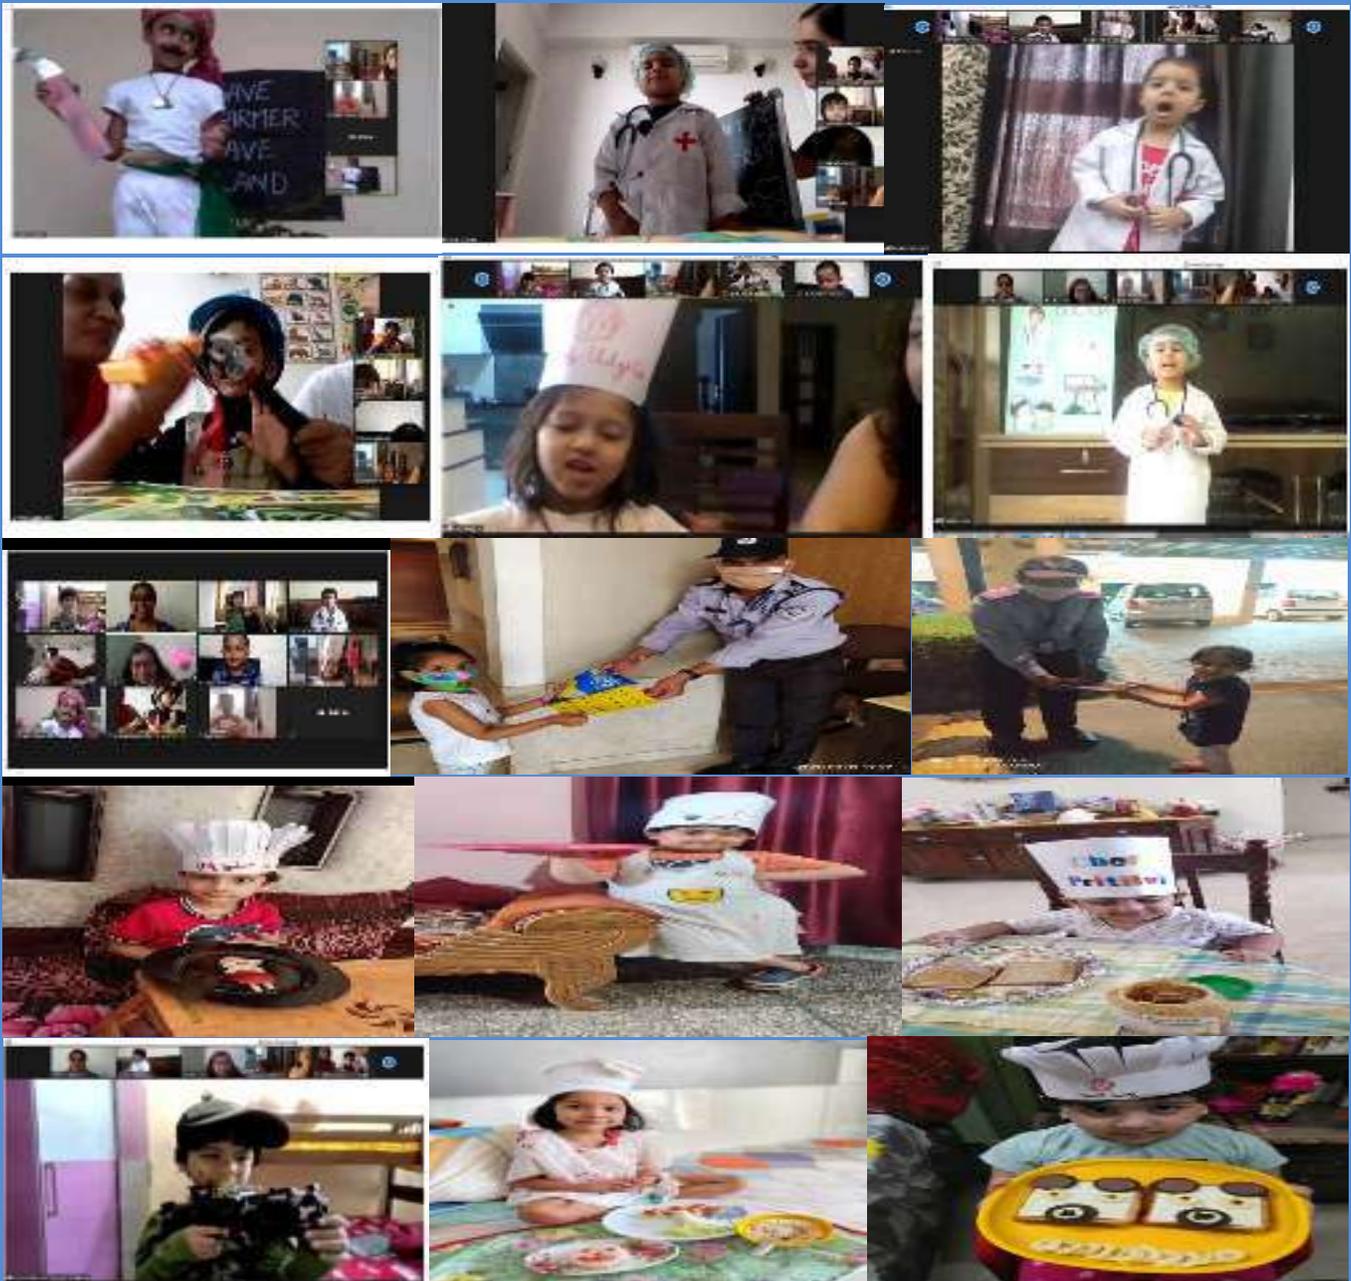

Plants are very important for our survival and these plants need sunlight, air, water and soil to grow. Our students learned about them in a practical way by performing an experiment.

# Our Community Helpers

*"To become a better you, remember to be grateful to people who have contributed to making you who you are today."*

*Community Helpers, go out every day and work tirelessly for us. Especially during these tested times, it takes courage and perseverance to go out and work in a public place or work for the public. The doctors, the nurses, the policemen, the watchmen, the house maids, the list is endless. They have been making our lives safe and easier since forever. To celebrate the spirit of Community Helpers and to thank them, students of Nursery wholeheartedly participated in a 'Dress N Tell' activity on the 26<sup>th</sup> of September'20 where they dressed up as their favourite community helper and spoke a few lines about them. The excitement of the children is worth mentioning here. It was a fun filled and overwhelming experience.*

# English Recitation Competition

*"Childhood is the time that is spent reciting rhymes"*

Poetry Recitation is a mode of expression, a medium to reflect the latent talents of the young ones. It is a stepping stone for the young students to develop their verbal skills and to boost their confidence. An English Recitation competition for the students of Pre-Nursery was held virtually on 19.09.2020. This competition was conducted to expand a student's experience and exposure to poetry. The tiny tots enthusiastically participated in the competition as they got an opportunity to exhibit their talent and confidence. Many students recited their self composed poems showcasing their confidence!

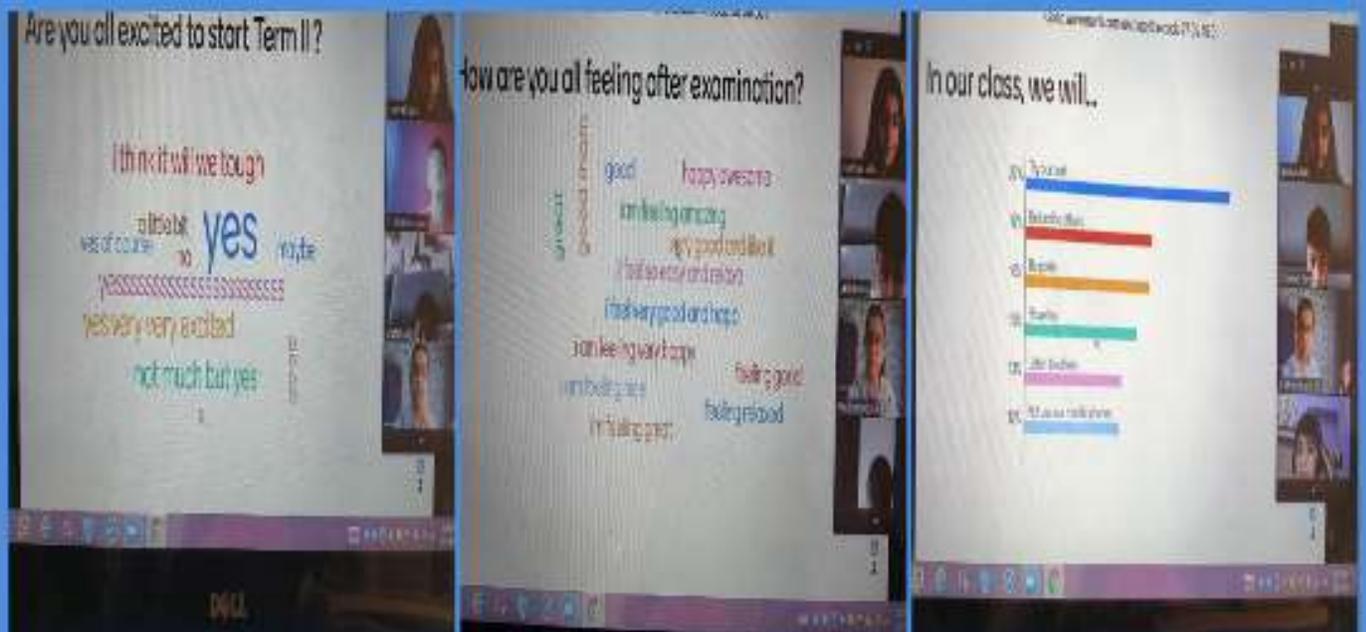

# Experiential Learning

*Grade VB Class Teacher Period Activity:*

*This innovative 'deep dive' activity was done with the help of a site called [mentimeter.com](http://mentimeter.com) , by using this site the teacher prepared three slides with different questions.*

- *How students are feeling after exams?*
- *In our class, we will...?*
- *Are you all excited to start term II?*

*The site has an option where whatever the answer the children write, it will start showing on the screen. The link was shared with the students and they started typing their answers. The answers appeared on the screen and they were excited to see their answers instantly on the shared screen. It helped them express their views and exchange their thoughts with their classmates.*

# Experiential Learning

*Grade-II EVS:*

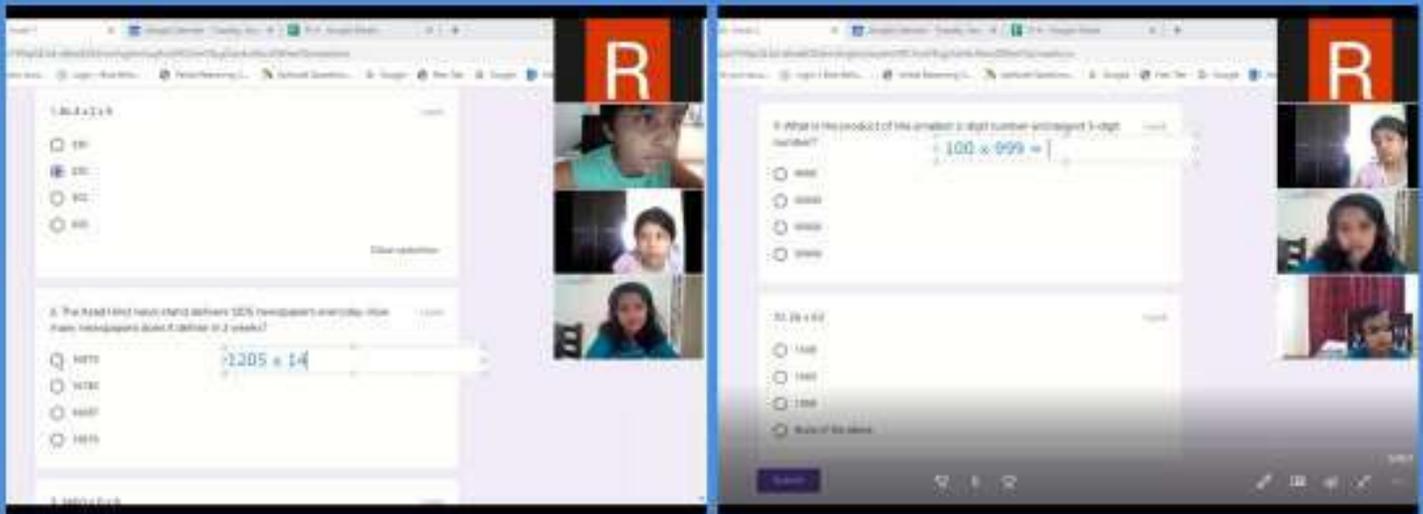

*Students of grade II learnt about the seasons of India in their EVS subject. They studied about the difference in temperature and the changes that occur in the climatic condition. Students were taught about the clothes worn and the measures taken to adjust to the changes in the climatic condition during different seasons. In order to understand this in a better way students were involved in an activity “Wheel of the Seasons” wherein they used their creativity to present the things used during different seasons.*

# Experiential Learning

*Grade III Math:*

*“Practice makes a man perfect.” Students were given enough practice before appearing for their unit test. Students solved an online revision test which helped them understand how to choose and mark the correct option. Students were made well aware of the marking scheme and all the norms to be followed while appearing for their unit test.*

# Hindi Diwas

*"Hindi hain hum... Watan hain....."*

The month of September witnessed a number of literary activities... to mark the importance and significance of 'Hindi Diwas'. This day (celebrated on 14th September) functions as a patriotic reminder to the students of their common roots and unity. Hindi Diwas was celebrated with great pride and vigour during the online activity classes. To inculcate the love for Hindi language, students were motivated to speak, write or perform in the Hindi language. Students got the opportunity to explore and sharpen their literary skills by keeping themselves engaged in these diverse activities. Some of the exemplary activities were 'Ad Mad' and poem recitation. Through these activities students and teachers came forward to talk about the importance of Hindi language and Indian culture. The children not only enjoyed participating in the activities, they used Hindi as a medium of conversation for the day. The occasion was proudly celebrated by all the students and the teachers from grades I to IV.

*Grade - I Poem Recitation:*

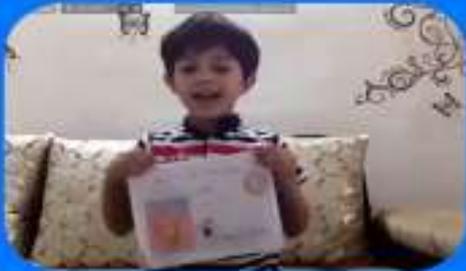

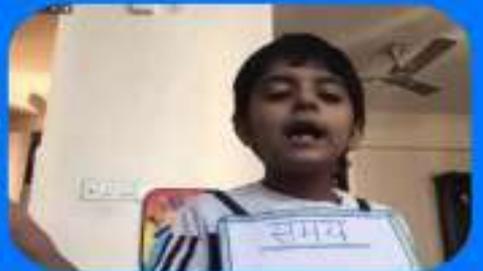

*Grade - I Poem Recitation:*

*Grade II Poem recitation:*

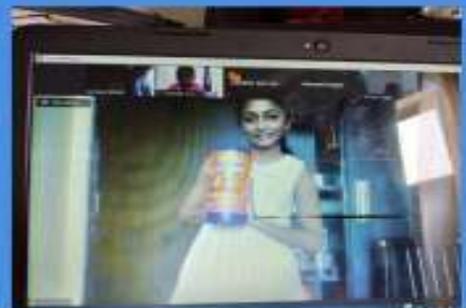

Grade - II Poem Recitation

# Grade III Poem Recitation

Grade IV Ad Mad:

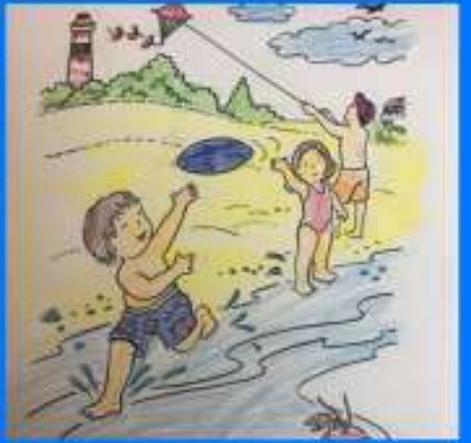

# Tourism

*Tourism plays a unique role in preserving cultural and natural heritage of all places around the world. World Tourism Day was celebrated on 27th September to foster awareness among the students about the importance of tourism and its social and cultural values. To mark the occasion children celebrated the day by taking part in a 'Virtual detouring' of various cities of India and foreign countries also. This virtual detour provided an experiential platform to virtually travel across the popular heritage sites, tourist attractions, and understand the depth and expanse of Indian as well as International culture and heritage. The children enjoyed watching the beautiful locations digitally and experienced the joy of travelling. The children explored the landscapes, the bustling streets, the festivals- of different states of India such as - West Bengal, Kerala, Punjab and of foreign places too - highlighting New York, London and even the Great Wall of China!*

*Grade I :*

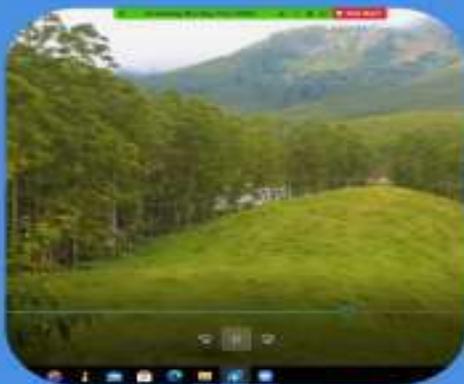

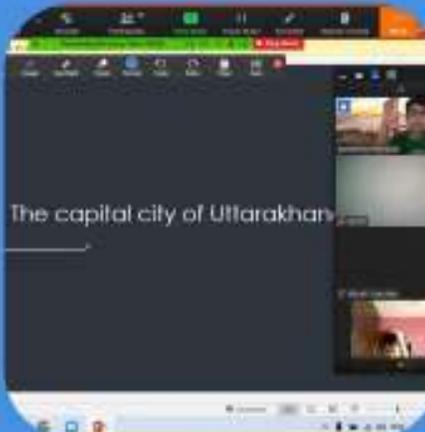

Grade -II

*Grade-III*

# Art activity

*Arts and craft activities help instill a sense of achievement and pride in children, boosting their self-confidence. The opportunity to create whatever a child desires helps foster creativity. A child will learn to make correct and effective decisions by facing and solving artistic challenges. Art and craft activities give children a sense of achievement and allow them to take pride in their work which builds confidence. Here are some glimpses of our creative artists .*

# Achievements

DPS Sec84, congratulates Divya Choudhary for participating in an Art competition organized by ISRO Cyberspace Competition, 2020 in the category of grade SI to III. We wish her good luck for her future endeavours.

Atreyu Sandilya of grade III has been awarded Zonal Rank 28 in Crest International Spell Bee exam. We wish him good luck and wish he keeps soaring high in future endeavours.

# Achievements

*“We cannot seek achievement for ourselves and forget about progress and prosperity for our community... Our ambitions must be broad enough to include the aspirations and needs of others, for their sakes and for our own.” Cesar Chavez .*

*Ms Shilpa Rampal has justified these words with her achievement, she participated in the National Level Online College Competition, 2020 which was conducted on 10<sup>th</sup> September, 2020 . She secured 1<sup>st</sup> position in the Essay (English) competition. This has indeed proved that our teaching staff stands out in the crowd.*

# Achievements

*“Trust yourself. Create the kind of self that you will be happy to live with all your life. Make the most of yourself by fanning the tiny, inner sparks of possibility into flames of achievement.”*

*Parv Gupta of grade VII was presented the certificate of game developer for his exceptional skills and outcomes in Game Development with deep UI/UX interface, organized by White Hat Jr. Certified Game Developer. We congratulate him for his achievement and wish him good luck for his future endeavours.*

# Participation

## Uday Mahajan Grade X

*Competitions are important to motivate young students and help them to develop their creative skills, analyze and evaluate their techniques and outcomes*

*The INSPIRE Awards - MANAK (Million Minds Augmenting National Aspirations and Knowledge), executed by Department of Science and Technology, Govt. of India with National Innovation Foundation, organized an art competition to motivate students in the age group of 10-15 years and studying in classes 6 to 10 to become future innovators and critical thinkers and address the societal needs through science and innovation using different mediums*

*The students of DPS Sector 84 enthusiastically took part in the competition and shared their original ideas and innovations rooted in science and societal applications to foster a culture of creativity and innovative thinking through their artwork.*

# *National Education Policy*

*"Learning needs freedom to think and freedom to imagine, and both have to be facilitated by the teacher."- A. P. J Abdul Kalam*

*The proposed New Education Policy (2020), which emphasizes problem-solving and critical thinking skills, will help the next generation of Indians finally 'prepare for life' and navigate uncertain futures. A key focus area of NEP is transforming the 'quality of teaching,' where teachers will be empowered to lead change. The Teachers of DPS Sector 84 participated in an Online Competition for teachers on 'Preparation of Communication Material' where the teachers had to submit their views and suggestions on implementation of various recommendations of NEP organized by the Ministry of Education.*

*A key focus area of NEP is transforming the 'quality of teaching,' where teachers will be empowered to lead change.*

*The participating teachers also had to prepare communication material on different themes of NEP 2020 related to school education. The Teachers had to submit their views and suggestions on each theme of the NEP 2020 and its effective implementation in school education.*

# Educational Workshops

Professional development makes teachers more efficient and helps them learn to improve their educational skills, improve overall organization, improve time management, improve technical knowledge and learn better ways to motivate the students. Research confirms that the most important factor contributing to a student's success in school is the quality of teaching. Professional development is the strategy schools use to ensure that educators continue to strengthen their practice throughout their career. The Teachers of DPS sector 84 attended several such Teachers' Training Workshops that were designed to equip the teachers with necessary pedagogic skills and enable them to acquire an understanding of child psychology and develop proper attitudes towards teaching. The School systems use a variety of schedules to provide this collaborative learning and work time for teachers. Through the various training programs organized by the school, the teachers received intensive mentoring which had a significant effect on students' achievements. It has helped the teachers to address students' major learning challenges and, also, trained the teachers to help students learn at the highest levels.
