# HOLI CELEBRATION

Today, 12th March 2025, our young learners celebrated the vibrant festival of Holi with "Petals of Joy"! Under the guidance of their class teachers, students indulged in a colourful blow painting activity, creating beautiful artwork. The lively celebration concluded with a joyful petal-playing session, where children delighted in scrumptious treats and spread happiness and laughter, dressed in their vibrant ethnic attire. It was a wonderful display of creativity, teamwork, and festive spirit!

## MONEY MART ACTIVITY

Long time ago, barter system was in practice. But this practice seemed difficult because not everyone needed what the other person had to offer. Money made buying and selling much easier! Money helps us get the things we need and teaches us to make smart choices. Learning about money now will benefit students in future! Today, the students of PREP conducted a hands-on activity on money, where they learned about the concept of exchanging currency. The classroom was transformed into a lively marketplace as they set up shops using artificial currency, practiced buying and selling, and explored currency denominations. This interactive experience helped them understand basic financial concepts while enhancing their math and communication skills—It was a fun and engaging way to learn real-life money management.

# SHOW AND TELL

The preparatory students learned about their favorite planets through a 'Show and tell' activity conducted in their respective classes. Students brought pictures and models of their favourite planets, showcased them and spoke about their planet. Students demonstrated excitement and curiosity and took part in discussions that encouraged vocabulary development and fostered social interaction. The 'Show and tell' activity on 'My favorite planet' was successful and introduced the tiny-tots to the wonders of our solar system. The activity was successfully performed with visual aids and interactive materials.

# SHOW AND TELL

# NATIONAL SCIENCE DAY

To celebrate National Science Day, our preparatory class conducted exciting experiments that showcased the magic of light, colour, temperature and water. The activities designed were fun, interactive, and easy to understand for our young learners.

The National Science Day celebration was a huge success, with our preparatory class enjoying the fun and interactive experiments. The activities helped our young learners develop their curiosity and interest in science. We used simple and easy-to-understand language to explain scientific concepts. Children were encouraged to ask questions and think critically about the world around them.

# CHIRPY STORYTELLER

Little voices, big stories! Our young storytellers took center stage, bringing classic fables to life with excitement and creativity. From the Thirsty Crow's clever idea to the Lion and the Mouse's heartwarming lesson on kindness, each story was a treasure trove of wisdom. The hardworking Ant and the carefree Grasshopper reminded us to prepare for the future, while the tale of the Golden Egg showed why patience is key. With expressive storytelling and boundless imagination, our little ones made the session truly magical!

# TREASURE HUNT ACTIVITY

A dash of adventure, a sprinkle of curiosity, and a whole lot of fun! Our tiny treasure hunters set out on an exciting sandpit treasure hunt, digging deep to uncover hidden letters, numbers, and shapes! With every discovery, their eyes lit up with joy, turning learning into an unforgettable adventure. Hands-on, minds-on, and hearts full of excitement—that's how we make learning magical!

## FAREWELL TO OUR LITTLE STARS

As we bid goodbye to an incredible year in nursery, we wrapped it up with a day full of fun, laughter, and creativity! From newspaper printing to flower making, our little ones explored their creativity and left their colorful imprints. A delightful potluck brought everyone together, filling the air with love and delicious treats. The joy continued with a coloring activity, allowing our budding artists to express themselves, followed by a high-energy dance session that had everyone moving to the beat! It was a day of memories, friendships, and happy goodbyes.

## BIDS ADIEU

Delhi Public School, Sector 84, Gurugram, bid a colorful adieu to the KG class on their last working day. The young learners indulged in a delightful potluck, savoring dishes brought from home. The day was filled with excitement as they enjoyed a coloring activity, sang songs, and played games, creating memories to cherish. The farewell celebration was a perfect blend of fun and learning.

## WORKSHOP

In today's interconnected world, knowledge gains its full potential when shared freely. It knows no bounds, enriching both those who impart it, like teachers, and those who receive it, such as students. DPS 84 has been a strong advocate for workshops that foster comprehensive learning. These include CBSE-led initiatives on active learning and art integration, which have been invaluable for teachers. Additionally, workshops on artificial intelligence have equipped teachers with strategies to revolutionize learning, and ultimately preparing students for a dynamic and evolving world. In-house workshops, including sessions on Story telling (as a part of pedagogy) have not only allowed teachers to learn, showcase their skills but also share their expertise, proving to be both enlightening and motivating.
