SHARE FAIR – EQUAL SHARE

Students of Grade 2 participated in an engaging hands-on activity titled “Share Fair – Equal Share” to strengthen their understanding of the concept of division. Division, being an essential mathematical operation involving equal sharing and grouping, was introduced through a fun and creative approach.

To make the learning experience concrete and enjoyable, each child was given 10 bindis and a cut ladyfinger for flower printing. They were asked to draw 10 plates on an A4 sheet and distribute the bindis equally among the plates by sticking them one by one. They also created 12 flower prints and shared them equally among 4 flower pots.

Through these tasks, students discovered that when objects are shared equally, no remainder is left—helping them visualize division as equal sharing and repeated subtraction.

The activity was highly interactive, allowing children to learn through visual, tactile, and creative exploration. Students participated enthusiastically, and the experience significantly enhanced their problem-solving skills, logical thinking, and conceptual clarity in division.

SHARE FAIR – EQUAL SHARE

GURUPURAB CELEBRATION

Our little ones celebrated the birth anniversary of Guru Nanak Dev Ji with great devotion and joy.

They learned about the significance of this special day — how people visit the Gurudwara, offer prayers, and enjoy the Langar.

Children beautifully decorated the 'Ek Onkar' symbol, spreading the message of oneness and peace.

The day ended on a sweet note as they lovingly shared Kada Prasad with their friends.

JOURNEY OF A RAINDROP

Students of Class 2 took part in an English Subject Enrichment Activity based on the theme “Journey of a Raindrop.” It was an art integration activity in which children drew a raindrop and illustrated its journey from the clouds to the earth. On a rainy day, the Children used their creativity and brought the day to life through their drawings and expressed how a tiny raindrop travels, falls on the ground, and becomes part of rivers or ponds. The activity helped children enhance their imagination and creativity while connecting art with language learning in an enjoyable way.

JOURNEY OF A RAINDROP

WORLD ORIGAMI DAY

To mark World Origami Day, our little learners enjoyed a creative and engaging Dog and Boat Making Activity. With great excitement, they folded colorful sheets of paper step by step, turning them into cute little dogs and pretty paper boats. The activity not only helped enhance their fine motor skills and spatial awareness, but also encouraged patience, concentration, and creativity.

The joy on their faces as they admired their own paper creations was truly heartwarming. It was a wonderful way to celebrate the art of Origami—where imagination came alive with a single fold of paper!

CHILDREN'S DAY

We celebrate Children's Day to honour and appreciate children—their innocence, joy, and importance in shaping the future.

In India, Children's Day is celebrated on 14th November every year to mark the birth anniversary of Pandit Jawaharlal Nehru, the first Prime Minister of India.

Students of Preparatory celebrated the occasion with great zeal.

CHILDREN'S DAY

Children are the sunshine that brighten every day with joy and innocence.”

Our Children's Day Bash was a wonderfully fun-filled and vibrant celebration, overflowing with laughter, energy, and excitement. The little ones jumped with unlimited joy in the Joy Jump Zone, created colourful magic in the Colour Splash Zone, and twirled happily while posing in the Twirl & Smile Studio . The Tattoo Corner added extra charm as children excitedly chose their favourite designs and proudly flaunted their colourful tattoos . With bright smiles, delightful takeaways, and hearts full of happiness, the celebration truly captured the spirit of childhood, making the day unforgettable for our little stars.

CHILDREN'S DAY

Children's Day was all about laughter, energy and pure joy! Our children spent the day immersed in fun games, exciting activities, and a delightful movie time that filled the room with smiles and giggles.

From playful competitions to creative challenges, every moment reminded us of the magic children bring into our lives — their curiosity, kindness, and endless imagination.

CONE SHAPE ACTIVITY

Learning about 3D shapes is very useful for kids, especially in early grades. Here's how it helps:

- It builds a strong math foundation as kids learn to identify shapes like cubes, cylinders, cones, and spheres.
- It improves spatial understanding, which is important for geometry later on.
- It improves observation and thinking skills of students as they start noticing and relating shapes in real life (ball = sphere, box = cube).
- It helps them compare, sort, and classify objects based on properties.

CONE SHAPE ACTIVITY

GERMINATION

- Learning About Germination helps children understand how plants grow- Germination shows the very first stage of a plant's life. Kids learn that plants start from seeds and need air, water, and sunlight to grow.
- It builds scientific thinking. When children observe seeds sprouting, they learn to ask questions, make predictions, and observe changes—important skills for science.
- It teaches responsibility and care. Watching seeds grow helps children understand the importance of taking care of living things by watering them and giving them proper sunlight.

Students learnt the germination through an activity conducted in the class.

GERMINATION

SHOW AND TELL - SEASONS

Our little stars came dressed and prepared with pictures/objects representing their favourite season—summer, winter, rainy or spring! With bright smiles and confident voices, they spoke a few lines about the season they love, the clothes we wear, and the things we use. This engaging activity helped them build confidence, vocabulary, and communication skills while making learning fun and interactive. So proud of our young learners as they explore the world of seasons in the most joyful way!

THANKS GIVING DAY

Delhi Public School, Sector 84, Gurgaon, celebrated Thanksgiving Day with great fervor and enthusiasm. The event, organized by the KG Class, was a meaningful expression of appreciation for the school's support staff. The tiny tots of KG Class showered their gratitude on the support staff, including housekeeping, security, and maintenance personnel, with handmade cards and sweet gestures. The students, with the help of their teachers, created colorful cards with heartfelt messages, expressing their thankfulness for the hard work and dedication of these unsung heroes.
